## **California Government Code Requirements**

Pursuant to the provisions of California Government Code Section 66006(b), the City of Chico, within 180 days after the last day of each fiscal year, shall make available to the public the following information:

1. A brief description of the type of fee in the account or fund.
2. The amount of the fee.
3. The beginning and ending balance of the account or fund.
4. The amount of fees collected and the interest earned.
5. Identification of each public improvement on which fees were expended and the amount of expenditures on each public improvement, including the total percentage of the cost of the improvement funded with the fees.
6. Identification of an approximate date by which construction of the public improvement will commence if sufficient funds have been collected to allow financing of the project.
7. Description of any interfund transfer or loan made from the account, including the public improvement on which the transferred or loaned funds will be expended. In the case of an interfund loan, the date on which the loan will be repaid and the rate of interest that the account or fund will receive on the loan.
8. The amount of refunds made pursuant to Section 66001(e), if any.

## Street Facility Improvement Fee (Fund 308)

A. Description and Purpose

Pursuant to Section 3.85.290 of the Chico Municipal Code, “street facility improvement” means any collector street, arterial street, or other major street or highway; any bridge, storm drain, sidewalk, curb, gutter, street light, traffic signal, street sign or other facility necessary or appurtenant to a collector street, arterial street, or other major street or highway; and any real property acquired for the purpose of constructing and installing such improvements or other facilities necessary and appurtenant thereto.

The purpose of the Street Facility Improvement Fee is to provide funding for the construction of those improvements to the City’s street system which are required to provide a community traffic circulation system to accommodate a population projected to be 134,000 by the City of Chico General Plan. The new residential, commercial and industrial development which is projected to occur to build-out will generate significant additional traffic and the need to improve and expand the City’s street facilities system. Fees are used to fund the needed improvements.

B. Amount of Fee

The City’s Street Facility Improvement Fees, as adopted by resolution of the City Council, are contained in Fee Schedule No. 50.010, which is available on the City's website.

## Street Maintenance Equipment Fee (Fund 335)

A. Description and Purpose

Pursuant to Section 3.85.295 of the Chico Municipal Code, “street maintenance equipment fee” means all of the vehicles and equipment used by the City in maintaining the City’s street system, including all buildings and real property constructed or acquired for the purpose of storing or servicing such vehicles and equipment.

The Street Maintenance Equipment Fee has two purposes: (1) to provide funding for the acquisition of the street maintenance facilities and equipment necessary to maintain existing street maintenance service levels as future growth and development occurs; and (2) to provide funding for the improvement of existing street maintenance buildings/facilities and/or the construction of such new facilities required to provide for the maintenance and storage of such equipment.

B. Amount of Fee

The City’s Street Maintenance Equipment Fee, as adopted by resolution of the City Council, is contained in Fee Schedule No. 50.010, which is available on the City's website.

## Basic Park Facility Fee (Funds 330, 333, 341-348)

A. Description and Purpose

As set forth in the Chico Municipal Code (CMC), Basic Park Facility Fees are comprised of three components. The first component is the Community Park Facilities Fee, defined in CMC §3.85.230 as any park facilities other than Bidwell Park which are intended to serve the recreational needs of all of the residents of the city. CMC §3.85.237 defines the second component, Linear Park and Greenway Facilities, as those narrow public open spaces maintained in a natural or landscaped state. Linear park and greenway facilities located along the banks of a creek may include all adjacent riparian habitat. The third and final component, Neighborhood Park Facilities, are defined in CMC §3.85.260 as those park facilities which are intended to serve the recreational needs of only a portion of the residents and other inhabitants of the city.

The purpose of this fee is to provide funding for the acquisition and improvement of those park facility projects required to augment the City's current park system and to accommodate the needs of projected new growth and development in the community.

B. Amount of Fee

The City's Basic Park Facility Fee, as adopted by resolution of the City Council, is contained in Fee Schedule No. 50.030, which is available on the City's website.

The reconstruction of a building or structure located on the property which was damaged or destroyed by fire or other casualty or which was voluntarily demolished during the prior 3-year period; provided, however, that where a residential building damaged or destroyed by fire or other casualty, or voluntarily demolished is reconstructed with one or more dwelling units in addition to the number of dwelling units in the damaged, destroyed or demolished building, a transportation facility fee shall be assessed and levied upon the owner of such building for each such additional dwelling unit; and provided further, that where a nonresidential, building or structure damaged or destroyed by fire or other casualty, or voluntarily demolished is reconstructed with a building or structural area greater than the area in the damaged, destroyed or demolished building or structure, a transportation facility fee shall be assessed and levied upon the owner of such nonresidential building or structure for all additional area within the reconstructed building or structure; or
- B. The construction of, expansion of or addition to a publicly owned building or structure, or the commencement of the use of a building or structure for public purposes; provided, however, that where the city constructs, expands or adds to a city-owned building or structure, the city council shall consider the need for any additional street facility improvements caused by such building or structure, and, where appropriate, shall construct and install or fund the construction and installation of such street facility improvements.

### IV. DEFERRAL OF FEES

- A. Transportation Facility Fees may be deferred from the date of issuance of a building permit to a date one (1) year from the issuance of the building permit or issuance of a certificate of occupancy, whichever occurs first, and upon meeting the following requirements:
  - 1. Single Family Residential
    - a. Owner shall enter into an agreement for deferral of fees prior to issuance of a building permit, and such agreement shall be recorded against the property.

- b. Owner shall pay to the City an administrative fee in an amount equal to 2% of the deferred Transportation Facility Fees which will be used to cover City processing costs.
- c. Notwithstanding 1.a. and 1.b. above, as an alternative, owner may pay to the City an administrative fee of \$150 at issuance of permit for the temporary deferral of Transportation Facility Fees in effect until September 4, 2012. Payment in full is to be paid one year from the date of issuance of the building permit or until the date of the final inspection, or the issuance of the conditional or final certificate of occupancy, whichever occurs first.

2. Multifamily Residential or Nonresidential

- a. Owner shall enter into an agreement for deferral of fees prior to issuance of a building permit.
- b. Owner shall execute a deed of trust and such deed shall be recorded against the property as a first deed of trust.
- c. Owner shall pay to the City an administrative fee in an amount equal to 2% of the deferred Transportation Facility Fees which shall be used to cover City processing costs.
- d. Notwithstanding 2.a. and 2.b. above, as an alternative, owner may pay to the City an administrative fee of 1% of the deferred Transportation Facility Fees in an amount not to exceed \$1,000. The temporary deferral of fees will be in effect until September 4, 2012. The administrative fee is to be paid at issuance of permit, with payment in full to be paid one year from the date of issuance of the building permit, or until the date of the final inspection, or the issuance of the conditional or final certificate of occupancy, whichever occurs first.

- B. Where the Transportation Facility Fees are being financed by a loan from the City for construction of low or moderate income residential units, payment of such fees may be deferred by the owner or developer from the date of issuance of a building permit to the date of issuance of a certificate of occupancy.

V. REIMBURSEMENT FOR OVERSIZED STREET FACILITY IMPROVEMENTS

Pursuant to Section 3.85.350 of the Chico Municipal Code, an owner who is required to construct and install street facility improvements which are in excess of that reasonably necessary to serve the subdivision or structure shall be entitled to reimbursement over a fifteen (15) year period for that portion of the street facility improvements which is reasonably calculated to reimburse the owner for the oversizing, less a sum equal to the City's cost to administer the reimbursement agreement. Such reimbursement shall be made pursuant to a reimbursement agreement executed by the City Manager at the time of approval of a final subdivision map, final parcel map, certificate of compliance or issuance of a building permit.

VI. AUTHORIZATION TO INCORPORATE CHANGES IN FEES

The City Manager is directed to increase the transportation facility fees set forth in this Fee Schedule annually on July 1 to increase fees based on the net percentage increase or decrease in the Engineering News Record Construction Cost Index for San Francisco.

II. FEE COMPUTATION (Without Building Plans) \$32.00

III. CREDITS TO FEES

Pursuant to Section 3.85.425 of the Chico Municipal Code, credits against the storm drainage facility fees shall be provided as follows:

- A. Where an owner or developer constructs off-site drainage facilities which meet the requirements of the Chico Municipal Code, a credit shall be provided in an amount equal to the actual costs of such storm drainage facilities.
- B. Where an owner or developer is changing the use of property and the new use will result in less storm drainage requirements than the previous use, a credit shall be provided in an amount equal to the storm drainage fee for the previous use.
- C. Where the property is or was located within an assessment district which purpose included construction of storm drainage facilities, and the owner commences use of the property, a credit shall be provided in an amount equal to that assessment levied for the property's fair share of the cost of storm drainage facilities constructed as part of the assessment district proceedings.
- D. Where the property is located within an assessment district which purpose included construction of storm drainage facilities, and the owner is commencing use of the property or is changing use of the property which would result in less storm drainage requirements, a credit shall be provided in an amount equal to that assessment levied for the property's fair share of the cost of storm drainage facilities constructed as part of the assessment district proceedings, or the amount of storm drainage fees required by this fee schedule, whichever is less.

IV. DEFERRAL OF FEES

Pursuant to Section 3.85.445 of the Chico Municipal Code, where the storm drainage facility fees are being financed by a loan or grant from the City for construction or alteration of low or moderate income residential buildings, payment of such fees may be deferred by the owner to the date of issuance of a certificate of occupancy for such building.

V. REIMBURSEMENT FOR OVERSIZED STORM DRAINAGE FACILITIES

Pursuant to Section 3.85.455 of the Chico Municipal Code, an owner who is required to construct and install storm drainage facility improvements which are in excess of that reasonably necessary to serve the subdivision or structure shall be entitled to reimbursement over a fifteen to thirty (15 to 30) year period for that portion of the storm drainage facility fees which is reasonably calculated to reimburse the owner for the oversizing, less a sum equal to the City's cost to administer the reimbursement agreement. Such reimbursement shall be made pursuant to a reimbursement agreement executed by the City Manager at the time of approval of a final subdivision map, final parcel map, certificate of compliance or issuance of a building permit.

VI. PUBLIC AGENCY AGREEMENTS

Pursuant to Section 3.85.435 of the Chico Municipal Code, payment of storm drainage facility fees shall be established by mutual agreement between the City and the Trustees of California State University, the Butte County Superintendent of Schools, any school district, and/or any state agency.

VII. AUTHORIZATION TO INCORPORATE CHANGES IN FEES

The City Manager is directed to amend this fee schedule annually on July 1 without further Council action to incorporate changes in fees based on the net percentage increase or decrease in the Engineering News Record Construction Cost Index for San Francisco.

- NOTES:
1. **The procedural requirements as set forth in Government Code Sections 66016-66018, including notice and public hearing, data availability, and effective date, must be followed when amending sections V-VIII of this fee schedule.**
  2. **The capacity fees for sewer lift stations are contained in City of Chico Fee Schedule No. 50.060.**

I. GENERAL PROVISIONS

- A. For the interpretation of the schedules set forth below, refer to Chapter 15.36 of the Chico Municipal Code.
- B. Credits and/or exemptions may apply toward the Water Pollution Control Plant Capacity Fee, Trunkline Capacity Fee or, Sewer Main Installation Fee. Refer to the appropriate Code sections for credits and exemptions.
- C. An owner who installs a sewer main extension may request a sewer main reimbursement agreement pursuant to the provisions of Section 15.36.220 of the Chico Municipal Code.
- D. Any fees calculated pursuant to this schedule shall be valid for a period of sixty (60) days from the date of notification by the City, or until the effective date of any amendment to the sewer rates, whichever is longer.
- E. If a property owner has made an application for sewer connection and has submitted building plans to the City for review and approval, the fees quoted shall remain valid until permit issuance or until expiration of the plan check, whichever first occurs.

II. APPLICATION FEES (Section 15.36.260 CMC) (Revenue Acct. 321-42302)

- A. All persons initiating a City of Chico Application for Sewer Connection shall pay the following fee upon submittal of an application. Application fees will not apply towards connection fees.

1. Properties located within the Chico city limits	\$100.00
2. Properties located within the unincorporated area of the County of Butte and within the Chico Sphere of Influence.	\$100.00
3. City staff analysis of alternate proposals to stated requirements on completed sewer applications pursuant to I. or II. above.  The \$62.00 minimum charge is to be paid upon submittal of the request, and any costs exceeding that amount shall be paid prior to issuance of completed analysis/response.	Actual cost (\$62.00 minimum)
4. Properties located within the unincorporated area of the County of Butte and outside the Chico Sphere of Influence.  City staff will conduct system capacity analysis and sewer main extension requirement analysis/cost estimate in response to specific requests to determine whether the sewer service area can be expanded. This analysis does not guarantee that city staff will recommend or that the City Council will approve modification to the sewer service area which would be required to allow connection to the system.	Actual cost (\$100.00 minimum)

B. Industrial Wastewater Permit (Section 15.40.190 CMC)

All persons applying for an Industrial Wastewater Permit shall pay the following application fee: \$64.00

B. In the event the City has erroneously collected sewer lift station service fees from the owner or occupant of residential or non-residential premises, the Finance Director shall refund the difference between the fee paid and the fee which should have been collected. Such refund shall be made only for fees erroneously collected within the three year period immediately preceding the date the presentation of a claim for such fees is made to the City in writing and shall be made only upon application by the property owner or occupant of the premises who paid the fees. Such claim must include adequate documentation of the fees collected in error.

C. Sewer lift station service rates as set forth in Section X.A. above will be reconciled annually, and the updated fee will be increased or decreased based on estimated expenditures offset by any balance remaining in the account.

XII. AUTHORIZATION TO ANNUALLY ADJUST FEES

A. The City Manager is directed to amend Sections II through X of this fee schedule annually on July 1 without further Council action when necessary to incorporate changes in fees based on the net percentage increase or decrease in the Engineering News Record Construction Cost Index.

B. The City Manager is directed to amend Section XI.A without further City Council action if, following a public hearing required by Article XIII D of the California Constitution, a majority of affected property owners do not protest a fee increase.
