

SW Creeks, Parks & Open Space Action Group
Kick-off Meeting
02/18/09

Meeting Notes

1. There is concern that a lot of people didn't know the kickoff meetings are going on.
2. Notice was e-mailed to the Neighborhood Services list (which included those survey respondents who asked to be involved in implementation of the plan), to BNA's list. Also, flyers were passed out to every business on park Avenue.
3. Would like to discuss how funding is to be allocated.
4. Cost estimates and recommendations for funding will be developed by the Action Groups and the Southwest Neighborhood Steering Committee will confirm the recommendations.
5. Would like to see us take advantage of the old railroad right of way sooner than later.
6. If a funding source is created for creekside property acquisition, it could be used for easements well as for fee acquisitions.
7. Creek cleanups need to be planned to make efforts most efficient.
8. Need to see City staff involved so projects continue moving and don't get derailed.
9. Emily Alma volunteered to be the point person for the action group.
