EAST 10TH STREET IMPROVEMENT PROJECT

On Monday, July 30, 2018, the City of Chico's contractor, Franklin Construction, Inc., will continue the road reconstruction phase of work on the East 10th Street Storm Drainage Project (Project) from State Route 99 to Linden Street. This phase of the Project will consist of the installation of street lights, road reconstruction, and concrete work associated with concrete valley gutter construction. This Project is anticipated to be completed by mid-September 2018.

The East 10th Street Improvement Project, designed in accordance with the Chapman Mulberry Neighborhood Plan, has been funded through a Community Development Block Grant (CDBG), as administered by the U.S. Department of Housing and Urban Development, focused on funding improvements in low-income neighborhoods.

Local access throughout the project construction zone will be subject to traffic controls and temporary delays in order to accommodate construction crews and equipment. Flaggers will be manning the closure limits and will be available to assist residents in accessing their homes. Drivers are encouraged to build extra time into their schedules, plan alternative routes to avoid the project area when possible, and drive with caution to avoid hazards and maximize the safety of workers in the roadway.

Residents and nearby businesses can expect temporary increases in equipment noise near active work areas. Typical work hours will be from 7 a.m. to 5 p.m., Monday through Friday. The City acknowledges that the increases in noise and temporary traffic delays are inconvenient and appreciates your cooperation and patience during this time.

For questions or concerns regarding this project, please call Construction Inspector Matt Gilbert at 530-624-1501 or e-mail at Matt.gilbert@chicoca.gov. For more information, please visit the City's website at www.chico.ca.us/capital_project_services/design.asp or follow the City of Chico Public Works Department on Facebook at www.facebook.com/cityofchicopublicworks/.
