PUBLIC WORKS FACEBOOK PAGE GOES LIVE!

To better serve the community, the City of Chico Public Works Department is excited to announce its new Facebook page accessible at

<https://www.facebook.com/cityofchicopublicworks/>. The new Facebook page will provide information to the public quickly and efficiently regarding work in the public right-of-way and on City properties. It's an additional tool to notify the public about street maintenance closures, storm issues, construction updates on capital projects, and other public works-related items.

The new Facebook page is intended for use as an informational tool from City Public Works staff to the public, not as an avenue for the public to post maintenance requests which should be made by calling the Public Works office at (530) 894-4200, or by emailing rightofwaymaintenance@chicoca.gov.

The City's Public Works Department is responsible for the engineering, construction, and operations and maintenance of City roads, storm drains, sewers, the water pollution control plant, city properties and facilities, traffic signal equipment, bridges, parks and greenways, oversight of development, and compliance with environmental regulations.

Please "like" our Facebook page in order to have posts show up on your news feed and to be aware of what is going on in our beautiful City of Chico!
