

3rd and 4th Street Buffered Bikeway Pop-Up Demo

Chico Velo in partnership with the City of Chico will be installing a temporary buffered bikeway along 3rd and 4th Street in Downtown Chico to further promote downtown Chico as a safe and accessible destination. The temporary bikeway will allow bicyclists, motorists, and pedestrians an opportunity to experience a buffered bikeway through downtown Chico while offering feedback. This feedback will be used to:

- Verify no negative impact on vehicular traffic flow
- Help with future funding
- Make any necessary changes on future designs
