April 7, 2017

CHICO RIVER ROAD 24" TRUNK LINE REPLACEMENT

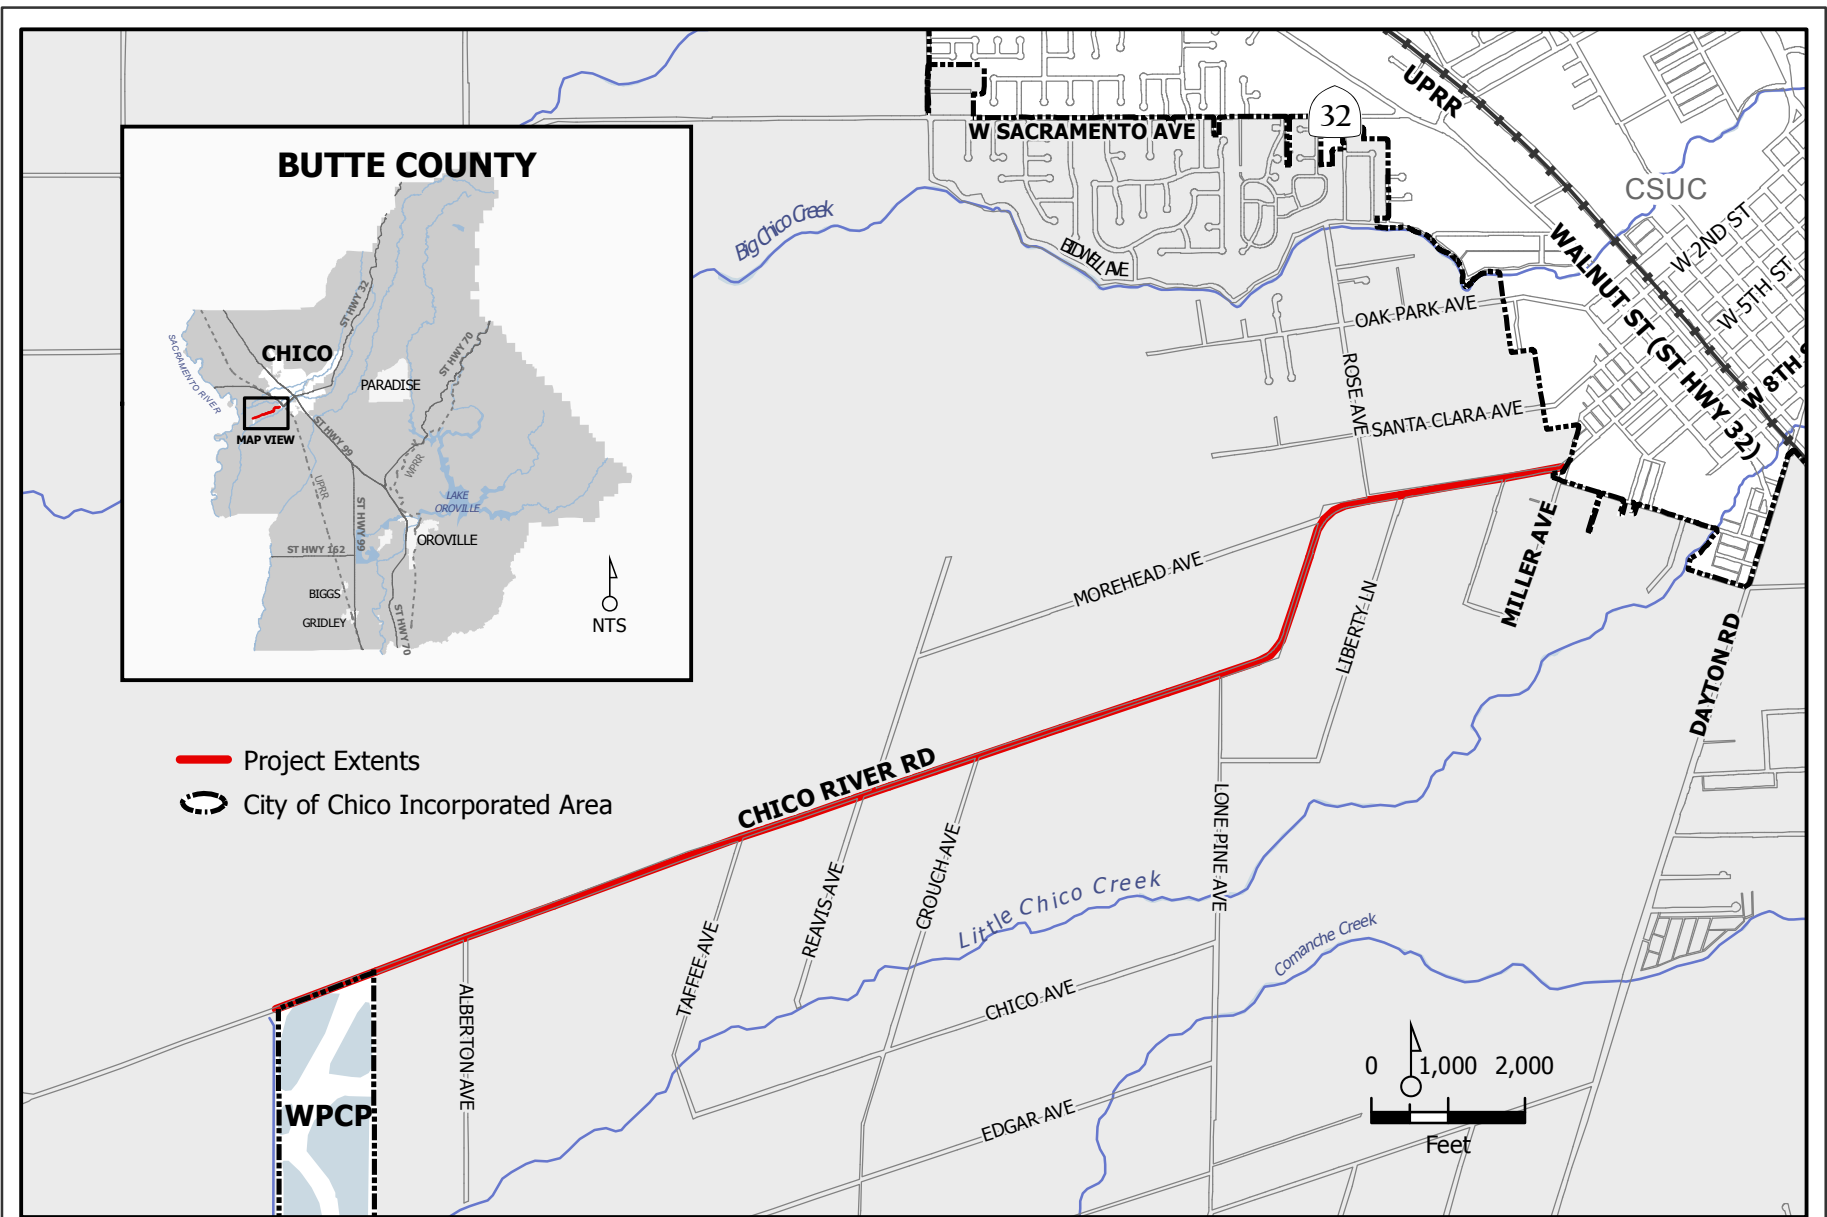

Beginning April 17, 2017, and continuing through early August 2017, Visinoni Brothers Construction will be performing construction along Chico River Road. The work, in general, consists of the construction of approximately 18,000 lineal feet of 24" sewer trunk line along Chico River Road, from Miller Avenue to the Chico Water Pollution Control Plant, as well as the complete slurry seal of Chico River Road over the previously described project limits.

Local access throughout the project construction zone will be subject to traffic controls and temporary delays in order to accommodate construction crews and equipment. Drivers are encouraged to build extra time into their schedule or plan alternate routes to avoid the project area if possible. The City acknowledges this temporary inconvenience and appreciates your cooperation and patience during this time. Residents and businesses are assured access to their properties at all times.

A map of the project area is attached. For more information about this project please visit the City's website at http://www.ci.chico.ca.us/capital_project_services/ChicoRiverRoadTrunkLine.asp For construction questions please contact Mike Visinoni at Visinoni Brothers Construction at 530-513-0945 or Visinoni23@gmail.com. For engineering questions please contact City of Chico Senior Civil Engineer Matt Thompson at 530-879-6959 or matt.thompson@chicoca.gov.
