February 17, 2017

### **CHICO RIVER ROAD 24" TRUNK LINE REPLACEMENT**

Beginning February 21, 2017, and continuing through early August 2017, Visinoni Brothers Construction will be performing construction along Chico River Road.

The work, in general, consists of the construction of approximately 18,000 lineal feet of 24" sewer trunk line along Chico River Road, from Miller Avenue to the Chico Water Pollution Control Plant, as well as the complete slurry seal of Chico River Road over the previously described project limits.

Local access throughout the project construction zone will be subject to traffic controls and temporary delays in order to accommodate construction crews and equipment. Drivers are encouraged to build extra time into their schedule or plan alternate routes to avoid the project area if possible. The City acknowledges this temporary inconvenience and appreciates your cooperation and patience during this time. Residents and businesses are assured access to their properties at all times.

Additional information regarding this project can be obtained by contacting Associate Engineer Matt Thompson at the City's Public Works Department-Engineering Division at 530-879-6959 or [matt.thompson@chicoca.gov](mailto:matt.thompson@chicoca.gov) during business hours.
