SHASTA CASCADE INTERNATIONAL CODE COUNCIL ELECTS CITY OF CHICO LEADERS TO THE BOARD

CHICO, CA — (January 29, 2024) The Shasta Cascade International Code Council Chapter (SCCICC) has elected Dale Fletcher, Deputy Director of Community Development at the City of Chico as President of the Shasta Cascade International Code Council Chapter (SCCICC) and Anthony Hanner, Senior Plans Examiner at the City of Chico as Vice President effective January 1st, 2024.

Dale Fletcher previously held the position of President from 2014-2019, and Anthony Hanner is new to the Board. As President Dale will be the administrative officer for SCCICC, set policy, and chair the SCCICC meetings. As Vice President Anthony Hanner will support all chapter chairs with administration of chapter duties.

“SCCICC is the northern-most ICC Chapter in California consisting of several small city jurisdictions and some very large counties with sparse populations. Most of the employees for these cities and counties deal with wide varieties of job descriptions, so the knowledge that Dale Fletcher and Anthony Hanner bring to our membership is extremely valuable,” said Steve Ayers, former SCCICC President.

A leading global source of model codes and standards and building safety solutions that include product evaluation, accreditation, technology, training, and certification; the Code Council's codes, standards, and solutions are used to ensure safe, affordable, and sustainable communities and buildings worldwide. The SCCICC Chapter was chartered by ICC on April 13, 2002.

“SCCICC provides professional development opportunities and industry resources to California Building Officials and other North State Building professionals. Dale Fletcher and Anthony Hanner are committed to supporting this organization and its membership, demonstrating the leadership the City of Chico provides throughout the entire North State Region,” said Chico City Manager, Mark Sorensen.

In 2022-2023 California Building Officials, CALBO, awarded the City of Chico the honor of *Building Department of the Year* due to its commitment to not only serve its community but the neighboring communities that have been devastated by natural disasters over the last couple of years. Staying true to its mission, the Chico Building Division accomplished this through promotion of public safety, community outreach and education to the community it serves.
