CITY OF CHICO'S 2024 PAVEMENT PRESERVATION PROJECT SET TO BEGIN

(Chico, CA – April 10, 2024) - The City of Chico is pleased to announce the start of the 2024 Pavement Preservation Project, scheduled to kick off next week. Doolittle Construction, LLC will commence work to improve roadways in the Parkhurst/Webster neighborhood, Stilson Canyon Road, and Humboldt Road. The project includes various roadway surface treatments alongside necessary striping enhancements. Construction will start the week of April 15, and is expected to run through the middle of May. Funded by Measure H, this project underscores the City's commitment to maintaining and improving its infrastructure for the benefit of all residents.

Throughout the project, local access within the project construction zone will be managed with traffic controls in place to ensure safety for motorists and construction crews. Temporary delays may occur as crews and equipment maneuver through the area, with the possibility of one-lane traffic during certain phases of the project. Motorists are encouraged to plan routes accordingly, allowing for extra travel time or considering alternate paths if possible.
