SCOPE OF PROFESSIONAL SERVICES - BASIC; COMPLETION SCHEDULE

Amendment No. 3 Services in Bold:

Scope of Professional Services - Basic

The Consultant shall provide professional services as follows:

TASK 1a – GROUNDWATER MONITORING

As specified in the O&M Manual dated June 28, 2016, and in accordance with the Consent Decree, Consultant shall continue to perform groundwater monitoring using the 30 site-related wells on a semi-annual basis. The samples shall be collected using passive diffusion bags (PDBs) installed in each well. The scope of monitoring shall include measuring and recording depth to groundwater in each well, collection of groundwater samples, and purchasing and installing PDBs for two semi-annual monitoring events. The sample collection and installation of new PDBs shall be performed during the same trip.

Consultant shall purchase 35 laboratory filled PDBs for each of two semi-annual monitoring events (70 PDBs total). Consultant shall use the PDBs for 30 wells, two duplicate samples, and one blank per sampling event. Two additional PDBs shall be purchased per event as spares in the case any of the PDBs break.

Consultant shall decant the groundwater from the PDBs into laboratory provided containers which shall be sealed, labeled, placed in a chilled cooler, and subsequently transported to the lab under chain-of-custody (COC) protocol.

TASK 1b – LABORATORY ANALYSIS FOR GROUNDWATER SAMPLES

Consultant shall contract with Eurofins Calscience for laboratory analysis of groundwater samples. Eurofins Calscience has been analyzing the groundwater samples for the project in accordance with the Field Sampling and Laboratory Analysis Plan (FSLAP) since 2003.

Eurofins Calscience shall analyze each groundwater sample for volatile organic compounds (VOCs) following EPA Test Method 8260B. Eurofins shall analyze 33 samples for each semi-annual event.

TASK 2a – O&M FOR TWO GROUNDWATER TREATMENT SYSTEMS

As specified in the O&M Manual, and in accordance with the Consent Decree, Consultant shall continue to perform quarterly inspections of the BCVE-1 and BCV-27 GWETS. For two of the events, if possible, Consultant shall perform O&M at the same time as the semi-annual groundwater monitoring events. Each inspection shall consist of the following for each GWETS: recording the system totalizer reading, estimated the well pumping rate, cleaning the particulate trap, measuring the water depth in each system's extraction well, assessing the optimal well pumping rate based on the water level date, checking the above-ground piping and carbon vessels for leakage; and testing the compound components (e.g., sump pump, high-level switches, emergency shutoff switch) for proper operation. Consultant shall also analyze flow data and make adjustments to the system, as necessary.

During each quarterly O&M event, Consultant shall collect water samples from the influent, midpoint, and carbon vessel effluent sample ports on each GWETS. Consultant shall also collect one duplicate and one travel blank during each event. Consultant shall collect the samples directly from the system ports into laboratory-provided containers and submit them to the lab under COC protocol as described above.

TASK 2b – LABORATORY ANALYSIS FOR TREATMENT SYSTEMS SAMPLES

Consultant shall contract with Eurofins Calscience to analyze the GWETs influent, midpoint, and GAC effluent water samples for VOCs following EPA Test Method 8260B. Eurofins shall analyze eight water samples per quarterly event.

TASK 3 – REPORTING AND PROJECT MANAGEMENT

Consultant shall prepare semi-annual monitoring reports which shall include a summary of field activities and methods, tabulated groundwater elevation and analytical data, groundwater elevation maps, and concentration maps. Consultant shall also prepare trend plots for the contaminants of concern and update the O&M Manual.

This task shall include general project management including personnel and task management, subcontractor invoices, vendor invoices, quality assurance and quality control checks, and communications.

TASK 4 – PREPARE WORKPLAN ADDENDUM FOR ADDITIONAL INVESTIGATION
