Assignment of New Auditing Firm

#### REPORT IN BRIEF:

The City has concluded the Request for Proposal process to contract with a new auditing firm to audit the financial statements for the City of Chico, the Chico Urban Area Joint Powers Financing Authority, the Passenger Facilities Charge (PFC) audit, and to perform the audit of the City's federal expenditures (Single Audit).

#### Recommendation:

Staff recommends the Finance Committee approve the selection of CliftonLarsonAllen LLP to perform the audits of the financial statements for the City of Chico, the Chico Urban Area Joint Powers Financing Authority, the Passenger Facilities Charge audit, and to perform the audit of the City's federal expenditures for a term of three years, with the option to extend for an additional two years, dependent upon satisfactory levels of services and cost. #### FISCAL IMPACT:

CliftonLarsonAllen LLP is proposing an audit fee of \$62,080 for the first year, with annual increases of less than 2% in each of the following four years. The first-year audit fees represent a savings of \$4,495 for the same services provided by Eide Bailly LLP (Vavrinek, Trine Day & Co. LLP) in fiscal year 2018-19.

#### BACKGROUND:

Section 1109 of the City's Charter states: "... the council shall engage an independent certified public accountant, or public accountant licensed by the State Board of Accountancy, to act as auditor for the city, such engagement to be at the pleasure of the council. The auditor shall perform an annual audit of the books, financial records and related documents of the city in accordance with generally accepted auditing standards."

The contract with the City's prior audit firm Eide Bailly LLP (Vavrinek, Trine, Day & Co. LLP) has expired.

#### **DISCUSSION:**

The City sent letters inviting audit proposals to over 30 accounting firms, posted the Request for Proposal on the City's website. As a result, the City received qualified responses from eight accounting firms. Each response included both a technical and cost proposal. City staff analyzed the technical and cost proposals from each firm and narrowed the field to two proposals. Subsequently, phone interviews were conducted, and staff ranked the top two accounting firms according to the technical proposals, cost proposals and interviews. Based on the interviews and recommendations received, staff recommends entering into a contract with CliftonLarsonAllen LLP.

Proposals submitted will be evaluated by a Review Committee consisting of key City staff. The Review Committee is scheduled to submit a recommendation to the Finance Committee, which consists of three council members, at the February 26, 2020 meeting. It is anticipated that the Finance Committee will make their recommendation to the City Council on March 3, 2020.

During the evaluation process, the Review Committee and the City reserve the right, where it may serve the City's best interest, to request additional information or clarifications from proposers, or to allow corrections of errors or omissions. At the discretion of the Review Committee or the City, firms submitting proposals may be requested to make oral presentations as part of the evaluation process.

The City reserves the right to retain all proposals submitted and to use any ideas in a proposal regardless of whether that proposal is selected. Submission of a proposal

indicates acceptance by the firm of the conditions contained in this request for proposals, unless clearly and specifically noted in the proposal submitted and confirmed in the contract between the City and the firm selected.

Following the selection of a firm, it is expected a contract will be executed between both parties by May 1, 2020.

#### B. <u>Term of Engagement</u>

#### C. <u>Assignment of Contract</u>

No assignment by the firm of any contract to be entered into hereunder or any part thereof, or of funds to be received there under by the firm, will be recognized by the City.

#### II. NATURE OF SERVICES REQUIRED

#### A. General

The City is soliciting the services of qualified firms of certified public accountants, with experience auditing cities and/or counties, to audit the comprehensive annual financial report (CAFR) of the City of Chico, and the separate financial statements of its discretely presented component unit, the Chico Urban Area Joint Powers Financing Authority for the fiscal years ending June 30, 2020, 2021 and 2022 with the option to audit the financial statements for each of the two succeeding fiscal years. These audits are to be performed in accordance with the provisions contained in this request for proposals.

#### B. Scope of Work To Be Performed

The City desires the auditor to express an opinion on the fair presentation of its financial statements in conformity with generally accepted accounting principles. In addition, the audit shall result in the expression of separate opinions on the financial statements of the Chico Urban Area Joint Powers Financing Authority.

#### C. Auditing Standards To Be Followed

To meet the requirements of this request for proposals, the audits are to be performed in accordance with generally accepted auditing standards, as set forth by the American Institute of Certified Public Accountants, the standards set forth for financial audits contained in U. S. General Accounting Office's *Government Auditing Standards*, the provisions of the Single Audit Act of 1984, as Amended, and Title 2 of the Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) as well as any other applicable federal, state, local or programmatic audit requirements.

Kathryn Mathes, CPA, Accounting Manager City of Chico P. O. Box 3420 Chico, CA 95927

Dear Ms. Mathes:

Thank you for inviting us to propose our services to you. CliftonLarsonAllen LLP (CLA) gladly welcomes the opportunity to share our approach to helping the City of Chico (the City) meet its need for professional auditing services. The enclosed proposal responds to your request for professional auditing services for the fiscal years ending June 30, 2020, 2021, and 2022 with the option of auditing its financial statements for each of the two succeeding fiscal years.

We are confident that our extensive experience serving cities and similar governmental entities, bolstered by our client-oriented philosophy and depth of resources, will make CLA the most qualified candidate to fulfill the scope of your engagement. The following differentiators are offered for the City's consideration:

- Strong Methodology and Responsive Timeline. In forming our overall audit approach, we have carefully reviewed the RFP and other information made available and considered our past experience performing similar work for other local governments. In addition to our local government clients, we currently serve more than 2,700 governmental organizations nationally. Our staff understands your complexities not just from a compliance standpoint, but also from an operational point of view. We have developed a work plan that takes into consideration your unique needs as a governmental entity in the state of California. The work plan also minimizes the disruption of your staff and operations, and provides a blueprint for timely delivery of your required reports.
- Communication and Proactive Leadership. The City will benefit from a high level of hands-on service
  from our team's senior professionals. We can provide this level of service because, unlike other national
  firms, our principal-to-staff ratio is similar to smaller firms allowing our senior level professionals to be
  involved and immediately available throughout the entire engagement process. Our approach helps
  members of the engagement team stay abreast of key issues at the City, and take an active role in
  addressing them.
- A Focus on Providing Consistent, Dependable Service. We differ from other national firms in that our
  corporate practice focuses on the needs of non-SEC clients, thus allowing us to avoid the workload
  compression typically experienced by firms that must meet public companies' SEC filing deadlines. CLA is
  organized into industry teams, affording our clients with specialized industry-specific knowledge
  supplemented by valuable local service and insight. Therefore, the City will enjoy the service of
  members of our state and local government services team who understand the issues and environment
  critical to governmental entities.
- CAFR Assistance. We understand the City's desire to issue a CAFR and receive the Government Finance Officers Association (GFOA) certificate of achievement for excellence in financial reporting. Our team is comprised of individuals, dedicated to your engagement, with significant experience assisting governmental entities in receiving this award. We will work closely with the City to assist in your CAFR preparation and review of the GFOA checklist, to best position the City to continue receiving this award.

#### Understanding of the scope of services

We have read the Request for Proposal and we understand the scope of work to be performed and the reports to be issued summarized in Section 2 of the RFP pages 2-4.

#### Commitment to perform work within the time period

CLA will perform these services in the time period specified in the RFP and as finalized in the planning stages of the engagement. Please see the proposed project timeline on page 29 for the year ended June 30, 2020 and subsequent years.

We are confident that our technical approach, insight, and resources will result in unmatched client service for the County. For ease of evaluation, the structure of our proposal follows your RFP section titled *V. Proposal Requirements*.

This proposal is a firm and irrevocable offer for 90 days.

We are eager to work with you and welcome the chance to present our proposal to the evaluation committee or entire management team. If you have any questions about our offerings, please do not hesitate to contact me.

Sincerely,

CliftonLarsonAllen LLP

We are not a joint venture or alliance of firms. We have the capabilities of providing all services outlined in the proposal with existing personnel from various California offices.

### Experience with local governments of a similar nature and scope

CLA offers the credibility, reputation, and resources of a leading professional services firm — without sacrificing the small-firm touch. We bring unsurpassed levels of technical excellence, commitment, and dedication to our clients, which have made us one of the most successful CPA firms serving governmental entities. Our strong reputation for serving state and local government units provides the City the confidence in their decision to select CLA as their professional service provider.

We have one of the largest governmental audit and consulting practices in the country, serving

more than 2,700 governmental clients nationwide. Public sector clients represent approximately one-fourth of all firm-wide revenue, and each of the government services team members are thoroughly versed in the issues critical to complex governmental entities.

Our continuous growth in working with the government sector has come about because we continually provide assistance to our clients in meeting their objectives.

As a CPA firm experienced in serving state and local units of government, we are very aware of the financial and legal compliance requirements that government officials are faced with daily. This creates complexities and

service issues within a unique operational and regulatory environment. Because of our experience, we have become adept at providing our clients with insights in this environment not typical of other CPA firms.

Our more than 700 assurance professionals serve local, county, and state government agencies nationwide. It has been our primary focus for more than 60 years. We understand the legislative changes, funding challenges, compliance responsibilities, and risk management duties that impact you. Our goal is to become familiar with all aspects of your operations, not just the information needed for the year-end audit. Our CPAs and consultants will stay in touch with you throughout the year, so we can offer solutions to challenges as they arise. You'll benefit from a close personal connection with a team of professionals devoted to state and local government agencies.

Any CPA firm can provide audit and accounting services, but few specialize in the area of accounting and auditing for local government entities like we do.

#### **GFOA** award-winning CAFR

The Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting is awarded to state and local governments that go beyond the minimum requirements of generally accepted accounting principles. It is awarded to state and local governments who produce a comprehensive annual financial report that evidences the spirit of transparency and full disclosure. Members of the GFOA staff and the GFOA Special Review Committee (SRC) review reports submitted to the CAFR program.

CLA provides audit services to many entities that received the GFOA Certificate of Excellence in Financial Report. All of the procedures noted in our audit approach and our technical review of the CAFR are done to help the County prepare and publish the top product possible. Our managers and principals who review the CAFR have a strong understanding of the GFOA requirement for the certificate. We understand that this is a prestigious award for the County and a great accomplishment for the Finance and Accounting departments.

We will review the GFOA comment letter for each CAFR and provide the County advice regarding the response to the GFOA reviewr's comments. Our procedures with respect to the CAFR will be the review of the comments from GFOA on the prior year submission to determine they were adequately addressed, completion of the CAFR checklist, and review of the transmittal letter and statistical data to determine that information presented is reasonable and agrees with the information in the combined financial statements and management's discussion and analysis (MD&A), where applicable.

We understand the interrelationships of the many and varied components of a governmental entity's combined financial statements, allowing us to quickly determine errors or problems with the combined financial statements. Our depth of knowledge and experience also allows us to assist the County with the preparation of the CAFR and improvement of the County's combined financial statements.

Our involvement with clients in the GFOA Certificate program helps to determine that we are on the leading edge of reporting trends and techniques. We have been engaged by various entities to review their statements for compliance with program requirements. We have aided clients in the early implementation of professional pronouncements and regularly provide our clients with updates on new pronouncements which will affect them and will do the same for the County.

#### Single audit experience

CLA has become the national leader in providing audit, tax and many other financial services to government entities similar to the County. Our client portfolio of nonprofit, government, and health care institutions represents nearly half of the firm's total revenues. The chart below illustrates CLA's experience in serving organizations that receive federal funds and demonstrates our firm's dedication to serving the government and nonprofit industry.

#### CLA performs the largest number of Single Audits in the United States! We audited nearly \$56 billion dollars in federal funds in 2018!

stThe information for the firms above was pulled from the Federal Audit Clearinghouse for audits with fiscal year ends from January 1, 2018 - December 31, 2018.

In the current environment of increased oversight, it is more important than ever to find qualified auditors who have significant experience with federal grants specific to the City and can enhance the quality of the City's single audit. Therefore, the single audit will be performed by a team of individuals who are managed by personnel who specialize in single audits in accordance with OMB's UG and who will offer both knowledge and quality for the City. As part of our quality control process, the single audit will be reviewed by a firm Designated Single Audit Reviewer.

The AICPA clarified auditing standard, AU-C 801 "Compliance Audits" requires risk-based concepts to be used in all compliance audits including those performed in accordance with OMB UG. Our risk-based approach incorporates this guidance.

### Single audit resource center (SARC) award

CLA received the Single Audit Resource Center (SARC) Award for Excellence in Knowledge, Value, and Overall Client Satisfaction. SARC's award recognizes audit firms that provide an outstanding service to their clients based on feedback received from an independent survey in June 2018.

The survey queried 10,762 nonprofit and government entities about the knowledge of their auditors, the value of their service, and overall satisfaction with their 2017 fiscal year-end audit. The SARC award demonstrates CLA's dedication to serving the government and nonprofit industry and maintaining the most stringent regulatory requirements in those sectors.

The City needs an audit firm experienced in performing single audits and a familiarity with the specific programs in which you are involved. You will benefit from CLA's experience in this area!

### Quality control and peer review report

The most recent peer review report we received expressed a rating of pass, which is the most positive report a firm can receive. We are proud of this accomplishment and its strong evidence of our commitment to technical excellence and quality service. The peer review did include several reviews of government engagements. The full report is provided on the following page.

In addition to an external peer review, we have implemented an intensive internal quality control system to provide reasonable assurance that the firm and our personnel comply with professional standards and applicable legal and regulatory requirements. Our quality control system includes the following:

- A quality control document that dictates the quality control policies of our firm. In many cases, these policies exceed the requirements of standard setters and regulatory bodies. Firm leadership promotes and demonstrates a culture of quality that is pervasive throughout the firm's operations. To monitor our adherence to our policies and procedures, and to foster quality and accuracy in our services, internal inspections are performed annually.
- Quality control standards as prescribed by the AICPA. The engagement principal is involved in the planning, fieldwork, and post-fieldwork review. In addition, an appropriately experienced professional performs a risk-based second review of the engagement prior to issuance of the reports.
- Hiring decisions and professional development programs designed so personnel possess the competence, capabilities, and commitment to ethical principles, including independence, integrity, and objectivity, to perform our services with due professional care.
- An annual internal inspection program to monitor compliance with CLA's quality control policies. Workpapers from a representative sample of engagements are reviewed and improvements to our practices and processes are made, if necessary, based on the results of the internal inspection.
- Strict adherence to the AICPA's rules of professional conduct, which specifically require maintaining the confidentiality of client records and information. Privacy and trust are implicit in the accounting profession, and CLA strives to act in a way that will honor the public trust.
- A requirement that all single audit engagements be reviewed by a designated single audit reviewer, thereby confirming we are in compliance with the standards set forth in OMB Uniform Guidance.

#### Report on the Firm's System of Quality Control

November 21, 2019

To the Principals of CliftonLarsonAllen LLP and the National Peer Review Committee

We have reviewed the system of quality control for the accounting and auditing practice of CliftonLarsonAllen LLP (the firm) applicable to engagements not subject to PCAOB permanent inspection in effect for the year ended May 31, 2019. Our peer review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants (Standards).

A summary of the nature, objectives, scope, limitations of, and the procedures performed in a System Review as described in the Standards may be found at www.aicpa.org/prsummary. The summary also includes an explanation of how engagements identified as not performed or reported in conformity with applicable professional standards, if any, are evaluated by a peer reviewer to determine a peer review rating.

#### Firm's Responsibility

The firm is responsible for designing a system of quality control and complying with it to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. The firm is also responsible for evaluating actions to promptly remediate engagements deemed as not performed or reported in conformity with professional standards, when appropriate, and for remediating weaknesses in its system of quality control, if any.

#### Peer Reviewer's Responsibility

Our responsibility is to express an opinion on the design of the system of quality control and the firm's compliance therewith based on our review.

#### **Required Selections and Considerations**

Engagements selected for review included engagements performed under Government Auditing Standards, including compliance audits under the Single Audit Act; audits of employee benefit plans; audits performed under FDICIA; audits of broker-dealers; and examinations of service organizations [SOC 1 and SOC 2 engagements].

As a part of our peer review, we considered reviews by regulatory entities as communicated by the firm, if applicable, in determining the nature and extent of our procedures.

#### Opinion

In our opinion, the system of quality control for the accounting and auditing practice of CliftonLarsonAllen LLP applicable to engagements not subject to PCAOB permanent inspection in effect for the year ended May 31, 2019, has been suitably designed and complied with to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Firms can receive a rating of pass, pass with deficiency(ies) or fail. CliftonLarsonAllen LLP has received a peer review rating of pass.

#### Results of federal or state desk reviews

CLA has been subject to several federal and state desk reviews by state oversight agencies during the past three years, and we have successfully resolved all findings. In addition, our government audits are subject to review by each agency's Office of Inspector General as well as the U.S. Government Accountability Office and we have also successfully resolved all findings identified in those reviews. There have been no terminations or disciplinary actions taken against CLA with any regulatory bodies or professional organizations during the past three years.

### Disciplinary action and pending litigation

From time to time, the firm is a defendant in lawsuits involving alleged professional malpractice. In all cases, the firm believes that it has a strong position and intends to defend it vigorously. Should the ultimate outcome be unfavorable, however, net of the deductible provisions of the firm's malpractice insurance, all cases are expected to be fully covered by insurance and will not have a material impact on the firm or its ability to perform these services.

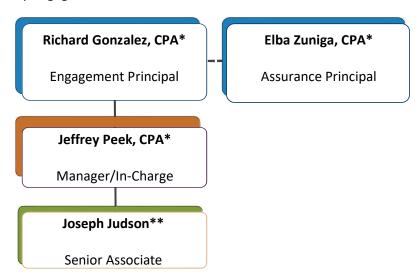

Moreover, in those cases where claims have been resolved by settlement (the vast majority of our cases), the firm is typically subject to confidentiality agreements that prohibit the disclosure of information regarding those matters. Disclosure by the firm of any details about those matters could invalidate the settlement agreements.

### d. Partner, Supervisory and Staff Qualifications and Experience

CLA has the resources on a local and national level to provide staffing for all the County's engagement needs. An experienced engagement team has been aligned to provide you with the most value for your organization. The team members have performed numerous engagements of this nature and will commit the resources necessary to provide top quality service throughout the engagement. All engagement staffing for the County will be provided by full time CLA employees.

The most important resource any business has is people — the right people.

The following are the County's key engagement team members:

\*Licensed to practice as a certified public accountant in California \*\*CPA candidates

#### **Roles and responsibilities**

Engagement Principal – Richard Gonzalez will have overall engagement responsibility including planning the engagement, developing the audit approach, supervising staff, and maintaining client contact throughout the engagement and throughout the year. Rich is responsible for total client satisfaction through the deployment of all required resources and continuous communication with management and the engagement team.

**Principal** – Elba Zuniga, CPA will serve as the quality assurance principal

Manager – Jeffrey Peek, CPA will act as the lead manager on the engagement. In this role, Jeff will assist the engagement principal with planning the engagement and performing complex audit areas. He will perform a technical review of all work performed and is responsible for the review of the financial statements and all related reports.

Senior Associate – Joey Judson will be responsible for the day to day activities for this engagement.

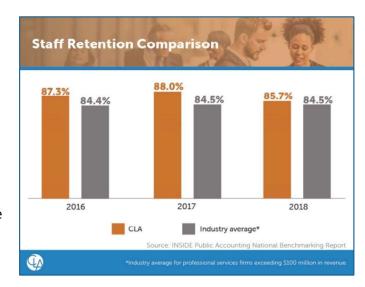

Additional Staff — We will assign additional staff to your engagement based on your needs and their experience providing services to state and local governments. Ideally, the staff assigned to your team will be from our Roseville office with state and local government as their industry focus at CLA.

All management team members assigned to your audit engagement team will hold a CPA designation. Additional staff will hold a minimum of a bachelor's degree from an accredited university, be a licensed CPA or CPA candidate, and will be closely managed by one or more of the individuals listed above.

### Staff continuity

We are committed to providing continuity throughout this engagement. It is our policy to maintain the same staff throughout an engagement, providing maximum efficiency and keeping the learning curve low. We are also flexible in exploring alternative strategies to non-mandatory rotation policies.

In any business, however, turnover is inevitable. When it happens, we will provide summaries of suggested replacements and will discuss reassignments prior to finalizing. We have an adequate number of qualified staff members to provide the County with top service over the term of the engagement.

CLA is committed to maintaining high staff retention rates, which we believe are a strong indicator of service quality. Continuity results in increased efficiency and quality because staff assigned to the engagement will not have to go through a "learning curve" with annual engagements or each new project. Client staff spends less time orienting the engagement team, and more time working toward goals. With a solid, steady engagement team, each year brings the additional benefits of trust and familiarity. High retention rates also indicate that our staff members have the resources they need to perform their tasks and maintain a positive work/life balance.

### f. Specific Audit Approach

### Audit methodology

CLA is one of a few firms that have developed its own proprietary audit program. Many firms use canned, offthe-shelf audit programs which limits their flexibility in determining what procedures they can and cannot perform because they must follow the audit methodology they have purchased. Our audit teams are able to customize our audit programs to address the specific risks and unique characteristics of your operation. We do not perform the exact same procedures for every client. In addition, our audit programs are interactive, providing guidance to the staff while they are performing the audit procedures.

### Commitment to communication with management

As you will see, we are committed to ongoing communication throughout the engagement. Continual communication starts when an engagement letter is issued, continues until the completion or closeout of an engagement, and throughout the remainder of the year. We believe effective communication is critical to a successful engagement. This communication includes the exchange of ideas and advice as changes are considered or implemented by the entity or the accounting profession.

During the engagement we will hold regular status meetings with the City to enhance day-to-day operations, results, and any issues are commonly understood and addressed. The objectives of tracking and formally reporting the engagement status are to:

- Provide a consistent technique for monitoring progress against plan
- Identify any issues quickly to allow for timely corrective action
- Provide an objective rather than subjective evaluation of status
- Provide timely information on a regular basis
- Assist with obtaining buy-in of any audit recommendations on a timely basis

Our proactive measures foster communications, both written and oral, which are ongoing, relevant and routine to our engagements. Our commitment to this practice encourages open lines of communication and often prevents and/or mitigates service delivery issues. Our professionals are trained in documenting observations, recommendations, business issues, and new developments as part of their daily routine.

We explain exactly what we're doing and what we've found in plain, everyday language. We translate our findings into ideas on how you can address them. We believe our services are a contributing factor to better business and administrative practices. We gain a better understanding of your organization by working closely with your staff. This involvement enables us to offer you recommendations or suggestions for improvement in

your systems and procedures that are more comprehensive, better understood, and more frequently implemented.

### Financial statement audit approach

We will conduct our audit in four primary phases, as shown below.

Phase 1 Planning and Strategy

Phase 2 Systems Evaluation

Phase 3 Testing and Analysis

Phase 4 Reporting and Follow-Up

### Continuous communication

### Financial statement work plan

Phase 1: Planning and Strategy

When performing an audit, we are sensitive to and understanding of the fact that we report to those charged with governance. We maintain objectivity and independence in order to be able to issue our audit opinions. We will act within our

philosophy of total client service, maintain the professional relationship refined with management, and fulfill our responsibilities with the utmost professionalism.

The main objective of the planning phase is to identify significant areas and design efficient audit procedures. We will accomplish our planning by following the methodology below:

Conduct an entrance meeting with the City – Rich Gonzalez, Jeffrey Peek and staff will meet with the City personnel to mutually agree on an outline of responsibilities and timeframes.

The agenda will include but not be limited to the following:

- Establish audit approach and timing schedule
- Assistance to be provided by the City personnel
- Application of generally accepted accounting principles
- Initial audit concerns
- Concerns of the City's management
- Establishment of report parameters and timetables
- Progress reporting process
- Establish principal contacts
- Gain an understanding of the operations of the City, including any changes in its organization, management style, and internal and external factors influencing the operating environment. We will utilize reference materials such as the budget and related materials, organizational charts, manuals and programs, financial, and other management information systems
- Identify significant accounts and accounting applications, critical audit areas, significant provisions of laws and regulations, and relevant controls over operations
- Determine the likelihood of effective Information Systems (IS) related controls
- Perform a preliminary overall risk assessment
- Confirm protocol for meeting with and requesting information from relevant staff
- Establish a timetable for the fieldwork phase of the audit
- Determine a protocol for using Interactive Data Extraction and Analysis (IDEA), our data extraction and analysis software, to facilitate timely receipt and analysis of reports from management

Compile an initial comprehensive list of items to be prepared by the City, and establish mutually agreed upon deadlines

We will document our planning through preparation of the following:

- ✓ Entity Profile. This profile will help us gain an understanding of the City activities, organizational structure, services, management, key employees and regulatory requirements.
- ✓ **Preliminary Analytical Procedures.** These procedures will assist in planning the nature, timing and extent of auditing procedures that will be used to obtain evidential matter. They will focus on enhancing our understanding of the financial results, and will be used to identify any significant transactions and events that have occurred since the last audit date, as well as to identify any areas that may represent specific risks relevant to the audit.
- ✓ General Risk Analysis. This will contain our overall audit plan, including materiality calculations, fraud risk assessments, overall audit risk assessments, effects of our IS assessment, timing, staffing, client assistance, a listing of significant provisions of laws and regulations and other key planning considerations.
- Account Risk Analysis. This document will contain the audit plan for the financial statements, including risk assessment and the extent and nature of testing by assertion.
- ✓ Prepared by Client Listing. This document will contain a listing of schedules and reports to be prepared by the City personnel with due dates for each item.

One of the key elements in the planning of this audit engagement will be the heavy involvement of principals and managers. We will clearly communicate any issues in a timely manner, and will be in constant contact with the City as to what we are finding and where we expect it will lead.

We will develop our audit programs during this phase. Utilizing the information we have gathered and the risks identified we will produce an audit program specifically tailored to the City. This program will detail by major section the nature and types of tests to be performed. We view our programs as living documents, subject to change as conditions warrant.

### Phase 2: Systems Evaluation

During the systems evaluation phase, we will gain an understanding of the internal control structure of the City for financial accounting and relevant operations. Next, we will identify control objectives for each type of control that is

material to the financial statements, and then identify and gain an understanding of the relevant control policies and procedures that effectively achieve the control objectives. Finally, we will determine the nature, timing, and extent of our control testing and perform tests of controls. This phase of the audit will include testing of certain key internal controls:

- Electronic data, including general and application controls reviews and various user controls
- Financial reporting and compliance with laws and regulations

We will test controls over certain key cycles. One audit efficiency initiative is to rely heavily on internal controls when appropriate, and to creatively look at internal control testing to make it as efficient as possible. This means not routinely performing detailed tests of transactions using large samples. We first seek to identify key controls, and then identify possible testing through alternative methods, such as observation, interviews, and re-performance. These tests serve not only to gather evidence about the existence and effectiveness of internal control for purposes of assessing control risk, but also to gather evidence about the reasonableness of an account balance.

We will also develop our internal control tests to assess the compliance with certain provisions of laws, regulations, contracts, and grants for which noncompliance could have a direct and material effect on the determination of financial statement amounts. Our use of multi-purpose tests allows us to provide a more efficient audit without sacrificing quality.

Our assessment of internal controls will determine whether the City has established and maintained internal controls to provide reasonable assurance that the following objectives are met:

- Transactions are properly recorded, processed, and summarized to permit the preparation of reliable financial statements and to maintain accountability over assets
- Assets are safeguarded against loss from unauthorized acquisition, use, or disposition
- Transactions are executed in accordance with laws and regulations that could have a direct and material effect on the financial statements

We will finalize our audit programs during this phase. We will also provide an updated Prepared by Client Listing based on our test results and our anticipated substantive testing.

During the internal control phase, we will also perform a review of general and application Information Systems (IS) controls for the applications that are significant to financial statements to conclude whether IS general controls are properly designed and operating effectively, and consider application controls as part of the internal control assessment in the financial statement audit. Our strategy for the IS review of the applications will involve reviewing all of the general control activities, including the computerized and manual processes. We will determine the scope of work by applying the concepts of materiality and risk assessment to effectively reduce examination inefficiencies. When planning this examination, we will gain an understanding of the City's operations by reviewing its current controls and control objectives as documented, and will also review prior years' audit work and the status of corrective actions.

Based on our preliminary review, we will perform an initial risk assessment of each critical element in each general control category, as well as an overall assessment of each control category. We will then proceed to assess the significant computer-related controls.

For IS-related controls that we deem to be ineffectively designed or not operating as intended, we will gather sufficient evidence to support appropriate findings and will provide recommendations to improve internal controls. For those IS controls that we deem to be effectively designed, we will perform testing to determine if they are operating as intended through a combination of procedures, including observation, inquiry, inspection, and re-performance.

#### Phase 3: Testing and Analysis

The extent of our substantive testing will be based on results of our internal control tests. It has been our experience that governmental entities, like the City, often have a system of internal controls that, with appropriately designed tests and

correlation to account balances, can be used to limit the extent of account balance substantiation testing.

Audit sampling will be used only in those situations where it is the most effective method of testing. Before deciding to sample, we will consider all possible approaches and audit techniques. Items where, in our judgment, acceptance of some sampling risk is not justified will be examined 100 percent. These may include unusual items or items for which potential misstatements could individually equal or exceed tolerable error.

After identifying individually significant or unusual items, we will decide on the audit approach for the remaining balance of items by considering tolerable error and audit risk. This may include (1) testing a sample of the

remaining balance; (2) lowering the previously determined threshold for individually significant items to increase the percent of coverage of the account balance; or (3) applying analytical procedures to the remaining balance. When we elect to sample balances, we will use IDEA to efficiently control and select our samples.

Our workpapers during this phase will clearly document our work as outlined in our audit programs. We will also provide the City with status reports during the course of the audit fieldwork. As in all phases of the audit, we will be in communication with the City to determine that all identified issues are resolved in a timely manner. We will also hold a final exit conference with the City to summarize the results of our fieldwork and review significant findings.

### Phase 4: Reporting and Follow-Up

Reports to management will include oral and/or written reports regarding:

- Independent Auditors' Report
- Independent Auditors' Report on Internal Control over financial reporting and on compliance and other matters based on an audit of Financial Statements Performed in Accordance with Government Auditing Standards
- Independent Auditor's Report on Compliance for Each Major Federal Program, Report on Internal Control Over Compliance, and Report on the Schedule of Expenditures of Federal Awards Required by the *Uniform Guidance*
- Management Letter
- Written Communication to Those Charged with Governance, which includes the following areas:
  - Our responsibility under auditing standards generally accepted in the United States of America
  - Changes in significant accounting policies or their application
  - Unusual transactions
  - Management judgments and accounting estimates
  - Significant audit adjustments
  - Other information in documents containing the audited financial statements
  - Disagreements with the City
  - The City's consultations with other accountants
  - Major issues discussed with management prior to retention
  - Difficulties encountered in performing the audit
  - Fraud or illegal acts

Once the final reviews of working papers and financial statements are completed, which is a process that actually starts while the fieldwork is in process, our opinion, the financial statements and management letter will be issued.

The City will be provided a draft of any comments that we propose to include in the management letter, enabling you to review the comments for accuracy prior to final release. Any items that come to our attention that are not what we consider major items may be discussed verbally with management and not included in the management letter. Our management letter will include items noted during our analysis of your operations.

We will also make a formal presentation of the results of the audit to those charged with governance of The City, if requested.

### Single audit approach

In the current environment of increased oversight, it is more important than ever to find qualified auditors who have significant experience with federal grants specific to the City and can enhance the quality of the City's single audit. Therefore, the single audit will be performed by a team of individuals who specialize in single audits in accordance with OMB's Uniform Guidance and who will offer both knowledge and quality for the City. As part of our quality control process, the single audit will be reviewed by a firm Designated Single Audit Reviewer.

The OMB's Uniform Guidance (2 CFR Part 200) is effective for federal grants made on or after December 26, 2014. This affects how federal grants are managed and audited and impacts every organization that receives federal assistance. Grant compliance can be a confusing topic and many of our clients rely on their federal funding as a major revenue source, so it is important that they understand what these changes mean to their organization. As a leader in the industry, CLA was out in front of these changes and informed our clients of how to be proactive about these changes could impact their entity. CLA professionals are available to provide guidance and tools tailored to the City's needs, and to assist in compliance with the new rules.

The AICPA clarified auditing standard, AU-C 801 "Compliance Audits" requires risk-based concepts to be used in all compliance audits including those performed in accordance with 2 CFR Part 200. Our risk-based approach incorporates this guidance.

We will conduct our single audit in three primary phases, as shown, below:

## Phase 1

Risk Assessment and Planning

### Phase 2

Major Program Testing

### Phase 3

**Final Assessment** and Reporting

### Single audit work plan

Phase 1: Risk Assessment and **Planning** 

The risk assessment and planning phase will encompass the overall planning stage of the single audit engagement. During this phase, we will work closely with the City's management to determine that programs and all clusters of programs are

properly identified and risk-rated for determination of the major programs for testing. We will also review the forms and programs utilized in the prior year to determine the extent of any changes which are required.

We will accomplish this by following the methodology below:

- Determine the threshold to distinguish between Type A and B programs, including the effect of any loans and loan programs
- Utilizing the preliminary Schedule of Expenditure of Federal Awards, we will identify the Type A and significant Type B programs (25% of Type A threshold) in accordance with the Uniform Guidance (UG)
- Identify the programs tested and the findings reported for the past two fiscal years. Determine and document the program risk based on the past two single audits
- Prepare and distribute Type B program questionnaires to determine risk associated with Type B programs
- Determine the major programs to be tested for the current fiscal year based on the previous steps
- Based on our determination of the major programs, we will obtain the current year compliance supplement to aid in the determination of Direct and Material Compliance requirements, and customize the audit program accordingly

Determine the preferred methods of communication during the audit

#### Phase 2: Major Program Testing

We will determine the programs to be audited based on the risk assessment performed in the planning phase. We will perform the audit of the programs in accordance with UG.

To accomplish this, we will perform the following:

- Schedule an introductory meeting and notify the City's management of the major programs for the current fiscal year
- Plan and execute the testing of the expenditures reported on the Schedule of Expenditures of Federal **Awards**
- Perform tests of compliance and internal controls over compliance for each major program identified
- Schedule periodic progress meetings to determine that schedules are adhered to and identify issues as they arise
- Conduct entrance and exit conference meetings with each grant manager

### Phase 3: Final Assessment and Reporting

We will re-perform the steps noted in the preliminary assessment and planning stage once the final Schedule of Expenditures of Federal Awards is received to determine if additional major programs were identified.

Based on the final determination of the programs we will perform the following:

- Identify Type A and significant Type B programs which were not previously identified.
- Re-assess the risk and determine if we are required to audit additional programs.
- Perform compliance testing at the entity wide level related to procurement and cash management requirements.
- Perform testing to validate the status of prior year findings for those programs not selected for audit.
- Prepare the Schedule of Findings and Questioned Costs.
- Conduct exit conference with the City's management to review drafts of required reports:
  - Independent Auditors' Report on Internal Control over financial reporting and on compliance and other matters based on an audit of Financial Statements Performed in Accordance with **Government Auditing Standards**
  - o Independent Auditor's Report on Compliance for Each Major Federal Program, Report on Internal Control Over Compliance, and Report on the Schedule of Expenditures of Federal Awards Required by the *Uniform Guidance*

Throughout the single audit, we will maintain communication through periodic progress meetings with those designated by the City. These meetings will be on a set schedule, but as frequently as the City determines. During these meetings, we will discuss progress impediments and findings as they arise.

### Proposed segmentation of the engagement

We have the capacity and the ability to meet the timelines listed in the request for proposal. In preparing the schedule we will start with management's report issuance date and work backwards to idenify key milestones such as the date to send the draft to the City, date to receive statistical information, date to receive transmittal letter, etc. The key milestones are milestones management and CLA agree are essential to meet the ultimate deadline, the issuance date.

The following is an abbreviated timeline and milestones in order to meet the deadlines listed in the RFP:

## 3. Out-of-Pocket Expenses

CLA does not anticipate charging any additional out-of-pocket expenses. Any out-of-pocket expenses arising from unforeseen circumstances will be discussed and agreed upon in advance, and CLA will accept reimbursement at the rate used by the City (Internal Revenue Service per diem rates) for its employees.

## 4. Rates for Additional Professional Services

It is not our policy or practice to bill our clients every time we receive a phone call. In the course of providing our services to you, we will regularly consult with you regarding accounting, financial reporting, and significant business issues with no additional costs. If a specific project is complex or requires significant time or resources, we will first discuss with you the scope of the project and its fee, to make sure there are no surprises. While it is difficult to establish an exact policy for billing in these situations, we commit to discussing with you in advance of performing our services if we believe the time requirement to provide you the desired assistance is other than routine. We will discuss the scope of the project and our estimate to complete it prior to commencing work. Our standard billing rates are included in the tables below.

Our last word on fees – we are committed to serving you. Therefore, if fees are a deciding factor in your selection of an accounting firm, we would appreciate the opportunity to discuss with you the scope of our audit plan.

At CLA, it's more than just getting the job done.

## 5. Manner of Payment

Progress payments will be billed on the basis of hours of work completed during the course of the engagement and out-of-pocket expenses incurred in accordance with CLA's proposal. Interim billing shall cover a period of not less than a calendar month.

## 4. Rates for Additional Professional Services

It is not our policy or practice to bill our clients every time we receive a phone call. In the course of providing our services to you, we will regularly consult with you regarding accounting, financial reporting, and significant business issues with no additional costs. If a specific project is complex or requires significant time or resources, we will first discuss with you the scope of the project and its fee, to make sure there are no surprises. While it is difficult to establish an exact policy for billing in these situations, we commit to discussing with you in advance of performing our services if we believe the time requirement to provide you the desired assistance is other than routine. We will discuss the scope of the project and our estimate to complete it prior to commencing work. Our standard billing rates are included in the tables below.

Our last word on fees – we are committed to serving you. Therefore, if fees are a deciding factor in your selection of an accounting firm, we would appreciate the opportunity to discuss with you the scope of our audit plan.

At CLA, it's more than just getting the job done.

## 5. Manner of Payment

Progress payments will be billed on the basis of hours of work completed during the course of the engagement and out-of-pocket expenses incurred in accordance with CLA's proposal. Interim billing shall cover a period of not less than a calendar month.

Location: Fund/Dept 001-130 – Human Resources
Expenditure Item: Category 5400 – Purchased Services

Description & Analysis: The department paid the annual fee for Neogov – our online application/hiring

system. This is an annual one-time expense and is within the budget.

Action Plan: None at this time.

#### Item #4

Location: Fund/Dept 900-140 - General Liability Reserve

Expenditure Item: Category 8900 - Other Expenses

Description & Analysis: At the start of each fiscal year, the department is required to pay our one-time annual premiums for our various insurance policies (general liability, property, etc.) – We do not anticipate this category being over budget.

Action Plan: None at this time.

#### Item #5

Location: Fund/Dept 901-130 - Work Compensation Insurance Reserve

Expenditure Item: Category 8900 - Other Expenses

Description & Analysis: At the start of each fiscal year, the department is required to pay our annual

insurance premium for excess workers' compensation. We do not anticipate this category being over budget.

#### Item #6

Location: Fund/Dept 001-112 - Gen Econ Dev

Expenditure Item: Category 8900 - Other Expenses

Description & Analysis: The city has multiple agreements with the Chamber of Commerce that we pay of

encumber at the beginning of the fiscal year, therefore we expend most of the budget upfront.

Action Plan: No action necessary.

#### Item #7

Location: Fund/Dept 900-140 – Gen Liab Rsv – Risk Mgmt

Expenditure Item: Category 8900 - Other Expenses

Description & Analysis: There are multiple department-error mis-coding issues within this category. The Risk Management division is working with Finance to correct the coding errors. This category will not be over-budget.

Action Plan: No action necessary.

#### Item #8

Location: Fund/Dept 901-130 - Workers' Compensation Insurance Reserve

Expenditure Item: Category 5400 – Purchased Services

Description & Analysis: The City settled a very large, unbudgeted, claim. Although significant in cost, in the long term, the settlement was the prudent thing to do, as the closing of this claim provides significant savings.

Action Plan: A supplemental will come to City Council at a future date to resolve this issue.

# **Monthly Budget Monitoring Report**

**FIRE** 

(Dept, Name)

Fiscal Year 2019-20 Monthly Report for the period ending: January 31, 2020

### Department Contact: Steve Standridge, Fire Chief

**Purpose:** The purpose of the review is to identify any expenditure trends which would hinder a department's ability to meet their approved budget targets or to highlight any trends of interest for the governing body.

### **Overall Summary:**

Fire-Rescue budget actuals are trending within budget.

#### **Items of Interest:**

#### Item #1

Location:

Fund 001-410

Expenditure Item:

Category 4000

Description:

Salaries and Employee Benefits

#### Analysis:

Fund 410 tracks the reimbursable responses for OES incidents. Due to the manner in which this fund is presented, it shows as over-budget, but it is not. Chico Fire-Rescue personnel assist CAL Fire and the Forest Service through the California Fire Assistance Agreement. These costs are proportional to incidents and are fully reimbursable. As such, costs will not be over reimbursements.

#### Action Plan:

Chico Fire-Rescue personnel have responded to incidents throughout the state and reimbursement is pending. When reimbursement is received, the account will be adjusted to reflect actuals.

# **Monthly Budget Monitoring Report**

POLICE	
(Department)	

Fiscal Year 2019/20 Monthly Report for the <u>period ending</u> 01/31/2020 Department Contact: Michael O'Brien, Chief of Police

**Purpose:** The purpose of the review is to identify any expenditure trends which would hinder a department's ability to meet their approved budget targets or to highlight any trends of interest for the governing body.

Overall Summary: Items of Interest:

#### 001-300 - Police

#### **Purchased Services:**

This category includes Professional Services which is where we paid for our Year 4 Storage and Licensing Fees for our Body Cameras. This fee, \$84,000, was not budgeted this fiscal year, but we will be asking Council to move funds into this account from savings in Salaries & Benefits.

#### 001-300 - Police

### Other Expenses:

The department has experienced budget shortfalls in this category due to over-expenditures in our Business Expense and Membership/Dues accounts which are fairly minor. The larger over-expenditures are in our Background Investigation account. We currently contract with an outside vendor to complete our background investigations, which cost between \$1,200 and \$1,500 each. We will be requesting an increase in this operation account for the next fiscal year. Our Training account is showing expenditures in excess of the average due to training taking place on an asneeded basis.

#### 050-348 Donations

#### **Material & Supplies:**

This category is for expenditures of donations by the Animal Shelter. At the beginning of the fiscal year an amount is budgeted to this category based on expenditures in the prior fiscal year. However, expenditures may exceed this amount due to more donations money coming in. We have expended more donations funds than we had last year at this time. All expenditures are reimbursed to the City through the North Valley Community Foundation.

#### 100-300 Grants - School Resource Officer Grant

### Materials & Supplies:

We added two additional School Resource Officers as of July 1<sup>st</sup> (bringing our total to four) and replaced the SRO Sergeant due to the promotion of Sergeant Mike Williams to Commander. The high expenditures in this category are due to the cost of outfitting those three new officers with uniforms and equipment.

### 217-300 Asset Forfeiture

#### Materials & Supplies:

\$10,000 of our \$25,000 annual BINTF participation fee is budgeted in this category. We pay the entire \$25,000 in July, so this is a one-time expenditure.
