

Table 1. Response to Comments from State Concurrence Review

Comment	Response
Self-cert checklist:	
Item 24: Did not quantify benefits. Page 5-45 mis-referenced – should be 5-47.	We added text to the beginning of Section 5.4 explaining Table 5-1. Appendix 5C describes how the benefits were quantified. Section 5.4 describes how benefits were quantified for individual projects. Page number was updated in the checklist.
Item 28: Page 5-45 mis-referenced – should be 5-47.	Page number was updated in the checklist..
Item 29: What about Table 5-1 or other? 5-45 is wrong page.	Table 5-1 was added and page number was updated in the checklist..
Item 30: The reference does not point to specific opportunities, needs correction.	Table 5-1 added and Section 5.4 was added in the checklist.
Item 33: Table 4-3?	Reference was corrected to Table 4-3 in the checklist..
Item 34: Page 5-45 mis-referenced – should be 5-47.	Page number was updated in the checklist.
Item 38: No timeline for funding provided and I don't see state/federal included (Prop 1 SWGP, CWSRF, IRWM).	Table 6-7 added as a reference for the timeline for funding in the checklist. A discussion on federal/state funds added to Section 6.8.1
Item 39: Wrong page reference; this only points to one specific project.	Table reference was updated to Table 5-20 in the checklist.
Item 42: Wrong page reference.	Page number was updated in the checklist.
SWRP:	
Table 5.1: I don't understand how a project with all zeros receives a score of 5.33 (environmental benefits category).	An explanation of Table 5-1 was added to the beginning of Section 5.4 explaining how all projects received a general score (which resulted in some projects receiving a score of 5.33), while some projects also received a more detailed score when information was available. A legend describing the color shading was added to Table 5-1.
Pg. 5-47, Section 5.7: How did they come up with 4AFY without quantifying benefits? Is there supporting documentation on how this was derived?	4 AFY was calculated by adding the values in the "Increased Infiltration" row in Table 5-1. This explanation was added to Section 5.7. The supporting information on how these numbers were derived is included in the project specific descriptions.
