*****MEDIA ALERT*****

UPCOMING STREET CLOSURE ALERT FOR EATON ROAD

(Chico, CA – January 7, 2022) Beginning **Monday, January 10, 2022** and lasting through **Wednesday, January 12, 2022**, Eaton Road will be closed to both Eastbound (EB) and Westbound (WB) traffic between Burnap Avenue and Morseman Avenue for roadway reconstruction work.

Traffic controls will be in effect between the hours of **7:00 a.m. through 4:00 p.m.** A temporary detour using Burnap, Morseman, and Lassen Avenues will be implemented during operations. Local access throughout the project construction zone will be subject to traffic controls, temporary delays, detours, and closures in order to accommodate construction crews and equipment.

The closure of this portion of Eaton Road is to allow Franklin Construction to complete grinding and cement work, in addition to curb and gutter installation as part of the construction requirements of the Amber Lynn Estates Subdivision. An additional closure for paving and striping will occur this month.

Drivers are encouraged to build extra time into their schedules, plan alternative routes to avoid the project area when possible, and drive with caution to avoid hazards and maximize the safety of workers in the roadway.

For media inquiries, please contact Lynda Gizzi, Public Works Department Public Information Officer, at (530) 353-5816.
