Cohasset Road Widening Capital Project

Public Works Engineering Department

COHASSET ROAD WIDENING CAPITAL PROJECT Beginning October 1, 2021

Beginning Friday, October 1, 2021, the City of Chico Public Works Engineering Department will start construction on the Cohasset Road Widening Capital Project. This project will complete the improvements programmed for Cohasset Road from the Sycamore Creek Bridge to Ryan Avenue in the vicinity of the Chico Municipal Airport.

Phases 1 and 2 of the project were completed in 2009 and 2008 respectively and included rehabilitating the roadway from Airpark Boulevard to Ryan Avenue, and reconstruction of the Sheep Hollow Bridge and its approaches in the vicinity of the City's compost yard.

Phase 3 will widen and improve Cohasset Road from two to four lanes from the Sycamore Creek Bridge to Airpark Boulevard and include intersection and bike path lighting as well as bike path, drainage and landscaping improvements.

For more information, please visit our project webpage through the QR code provided, or at <https://chico.ca.us/cohasset-road-widening>.
