*****MEDIA ALERT*****

COMMUNITY MEETING FOR HEGAN LANE CONGESTION RELIEF PROJECT

The City of Chico recently completed a draft of the Hegan Lane Congestion Relief Traffic Analysis Report. The report was prepared for the City to address longstanding congestion challenges in southwest Chico associated with vehicular travel between Hegan Lane and the East Park Avenue interchange at State Route 99.

The Project study area is in the vicinity of the Hegan Lane Business Park with access via Hegan Lane, and includes the transportation network between Otterson Drive, Hegan Lane, Midway, East Park Avenue, Fair Street, and Scott Avenue.

A community meeting is scheduled for 5:30 p.m. on Thursday, September 22, 2022, and will be held in the Chico City Council Chambers, located at 421 Main Street. City Engineering staff and their consultant will give a brief presentation on the project and will be available to answer questions. Members of the community are encouraged to attend to learn more about the project and provide input on the project.

More information, including the draft of the Traffic Analysis Report can be found on the City project's webpage: <https://chico.ca.us/hegan-lane-congestion-relief-project>.

The City welcomes and encourages interested stakeholders, neighbors, and other members of the community to review the Traffic Analysis Report and appendices prior to the community meeting. The deadline to submit comments, suggestions, and other input has been extended and will be received until 5:00 p.m. on Friday, September 30, 2022.

For media inquiries, please contact the Public Works Department Engineering department, at (530) 879-6900.
